

TRANSFORMER-LIFE-MANAGEMENT CONFERENCE

TLM 2019 – Xi'an - China

TLM goes global

**TLM 2019 HV Equipment
Insulation Diagnostic
and Life Management
int'l Conference**

May 17th to 18th at Xi'an - China

With the rapid development of China's electrical power industry, the new era has come into being with the large HV equipment capacity and the high voltage of the large power network. In order to promote the insulation and life management technology of high-voltage electrical equipment, the relevant testing and diagnostic technology has been developed rapidly. The EPTC propose to held 2019 TLM HV equipment insulation diagnostic and life management International conference in collaboration with Energy Support GmbH.

The conference aims to deepen the comprehensive understanding and technological upgrading of equipment insulation system based on insulation material basic research, production and processing, detection and diagnosis, operation and maintenance, life and reliability analysis and so on.

The conference will invite domestic and foreign well-known experts in the field of power equipment insulation, and around high voltage electrical equipment insulation monitoring and diagnosis and prolonging the life of professional issues, technical comprehensive introduction and research, to improve the detection and management level of power equipment maintenance.

Registration for Exhibitors at the Transformer Life Management Conference 2019

May 17th to 18th at Xi'an - China
